BBA

Reviews on Biomembranes

Vol. 988, No. 1; 18 January 1989

Contents

Information for Contributors *vii*

Mitochondrial protein import (BBA 85341)
F.-U. Hartl, N. Pfanner, D.W. Nicholson and W. Neupert (F.R.G.) 1

Monomer-oligomer equilibrium of sarcoplasmic reticulum Ca-ATPase and the role of subunit interaction in the Ca^{2+} pump mechanism (BBA 85342)
J.P. Andersen (Denmark) 47

Na^+/H^+ exchange and growth factor-induced cytosolic pH changes. Role in cellular proliferation (BBA 85344)
S. Grinstein, D. Rotin and M.J. Mason (Canada) 73

Multiple conductance states of the sodium channel and of other ion channels (BBA 85343)
H. Meves and K. Nagy (F.R.G.) 99

The spectrin-actin junction of erythrocyte membrane skeletons (BBA 85346)
V. Bennett (U.S.A.) 107

Membrane function in mammalian hibernation (BBA 85345)
R.C. Aloia and J.K. Raison (U.S.A., Australia) 123
